optimización del sistema en las diferentes localidades de la ciudad, con el objetivo de mejorar los niveles de servicio de las rutas del componente zonal bajo criterios de sostenibilidad financiera, a partir de cambios que se ajusten a las dinámicas de movilidad y necesidades de la ciudad.

En este sentido, dentro del proceso de análisis definido al interior de la entidad, en el cual participan las áreas técnicas, financiera, jurídica y de comunicaciones, se realiza una evaluación integral, con el fin de lograr mejoras operacionales, buscando el beneficio general para los usuarios. En este procedimiento se reciben solicitudes de la comunidad, de los concesionarios, y las propuestas de la entidad, y con base en el comportamiento de las rutas analizado por las áreas operativas de la entidad, se identifican las necesidades de cambio.

A partir de estos estudios se han identificado oportunidades de mejora en diversas rutas que tienen influencia en la localidad de Puente Aranda y que se presentan en el “2. Documento Acciones de mejoramiento”.

Entre las mejoras se resalta la implementación de la ruta AF019 “AC3/Comuneros -AC3/AK68” la cual opera en el pico PM con el fin de desalimentar la estación comuneros en conexión a barrios en inmediaciones de la Avenida Calle tercera como Tibana, Primavera, El Jazmín, Galán, entre otros.
